

YEN PHAN

IT Student

About Me

I am an enthusiastic IT student with a strong passion for AI learning and development. I have hands-on experience working in Scrum teams and have developed both mobile and desktop applications. My recent projects include building an advanced AI-powered chatbot, which deepened my skills in natural language processing and machine learning. I'm eager to contribute to innovative, real-world solutions at the intersection of software engineering and artificial intelligence

Experience

Study Start Week 09/2024 - 02/2025
Student Project

During this project, we created an app using React Native as framework to create minigame for first year student to get to know our university on the first day. The app using AI to recognize the object to serve the minigame to find the objects and explore the university

AI Chatbot Bravur 02/2025 - 06/2025
Student Project

In this project I and my team worked with Next Novum, who is a partner of ITHUB and our main task is developing a chatbot, serve as a plugin for the website of the company so that it can have natural and smart conversation answering questions from website visitors.

App Development 04/2025 - 06/2025
Android App Development Project

During this project we developed an app called StepUp app, which is basically an app to encourage the users walking more through interesting activities on the app, so that they can improve their health by walking more everyday and keeping track of the number of their steps

AI-Powered Restaurant Toolkit 07/2025 - 08/2025
Solo Project

AI-Powered Restaurant Toolkit – A web-based platform designed to help small food businesses maintain an engaging online presence while managing daily operations. The toolkit provides AI-generated promotions, social media formatting, menu management, and customer feedback analysis, enabling owners to focus on service while growing their digital reach. Built as a full-stack web application with React.js, Node.js, Firebase, and OpenAI GPT API for intelligent, context-aware interactions.
